Revolving Ice Tray

Ice cubes are released from the tray with just a simple twist of the revolving handle.

Multi-purpose Egg Shelf

Convenient and versatile, the egg shelf holds as many as twenty-four eggs, and is perfect for storing a wide variety of small food items.

- Silver Titanium Deodorizer
- Front Cooling System
- Crystal Shelves
- Frost & CFC Free
- Jumbo Sliding Chilled Case
- Revolving Ice Tray
- Fruit & Vegetable Crisper
- Multi Purpose Egg Shelf with 2 Egg Racks
- Big Bottle Pockets & Stopper
- Adjustable Foot
- Adjustable Door Shelves

Sliding Chilled Case

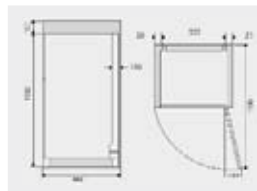

Equipped with a smooth-sliding roller, the sliding chilled case allows for easy access and is great for dairy products and processed foods.

Adjustable door shelf

Mitsubishi Adjustable door shelf offers more storage to suit your needs. The level of each pocket is fully adjustable for items of different shapes and sizes.

Big Tower Light

The refrigerator is brightly illuminated by a tower-style light, making the contents easy to see.

Tempered Glass Shelves

Mighty101
Tempered Glass Shelf

For every action, there's always reaction. Mighty101 tempered glass shelf has the ability to withstand and react upon a down force up to 101 kilograms.

- Silver Titanium Deodorizer
- Surround Cooling System
- Vitamin Guard
- Frost & CFC Free
- Jumbo Sliding Chilled Case
- Tempered Glass Shelves
- Revolving Ice Tray
- Big Tower Light

- Fruit & Vegetable Crisper
- Multi Purpose Egg Shelf with 2 Egg Racks
- Big Bottle Pockets & Stopper
- 4 Rollers
- Adjustable Feet
- Adjustable Door Shelves

Freezer Light

The additional light adds brightness and visibility to your freezer every time you open the door.

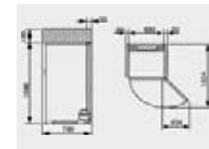

Surround cooling

Mitsubishi's innovative SURROUND COOLING AIR-FLOW system distributes a constant stream of chilled air to each shelf to ensure every corner of the refrigerator is cooled evenly so that all food items remain fresh, no matter how many items are stored.

Dual-Function Double Sliding Chilled Case

The practical double sliding chilled case is perfect for storing, dairy products, fresh fish or meats. It stores food at around 0 degrees ensuring lasting freshness.

DOOR ALARM

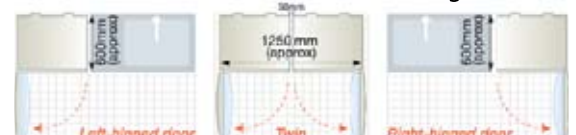

* Stop food spoilage in your freezer drawer and fridge compartment.

- Silver Titanium Deodorizer
- Surround Cooling System
- Super Quiet Operation
- Double Sliding Chilled Case
- Crystal Shelves
- Multi Purpose Egg Shelf with 1 egg rack
- Frost & CFC Free
- Auto Ice Maker
- Multi Purpose Door Pockets
- 4 Rollers
- Adjustable Feet
- Convenient slide-out drawer perfect for storing your fruit & vegetables

Slim & Compact Design

Great when space is at a premium. Ideal for units, town houses or semi-detached dwellings.

Easy Access

Designed to take frequency of use into consideration means the refrigerator is located at the top, the fruit & vegetable humidity drawer is in the middle and the freezer drawer at the bottom. This design minimizes the amount of bending required when accessing your refrigerator.

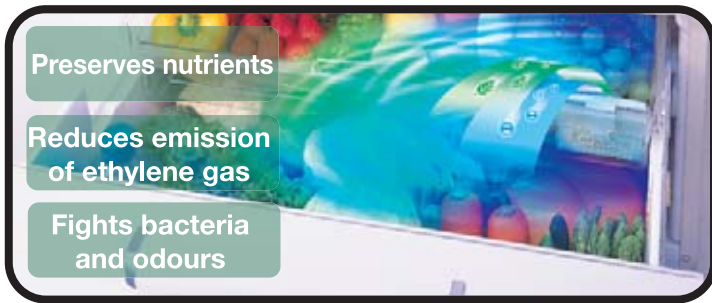

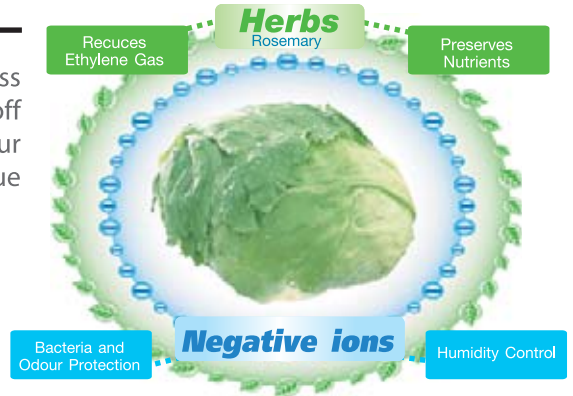

Main Features

VEGETABLE CRISPER WITH VITAMIN GUARD

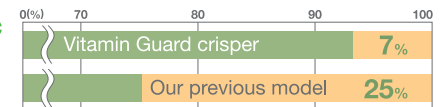

The double protection of herbs and negative ions help preserve the freshness and healthy goodness of your vegetables. The negative ions help to ward off bacteria, absorbing unpleasant odours and preserving the flavour of your vegetables, while the herb essence protects your vegetables nutritional value by slowing down vitamin oxidization.

DOUBLE PROTECTION

Now four times more effective at preserving nutrients

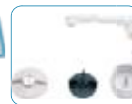

Rate of Loss of Vitamin C (Broccoli stored for seven days)

The Automatic Ice Maker

The ICE MAKER produces clean, fresh ice cubes, automatically. Simply fill the water tank with clean, clear water, which in turn supplies water to the ice cube trays. As soon as the water is frozen, the cube trays are automatically twisted and the cubes fall into the ice cube bin that is located within the bottom freezer drawer. To ensure the delivery of clean, fresh ice cubes every time, the water supply system can easily be removed for periodic cleaning.

Sparkling, non stick ice cubes

Easy to wash and frost free

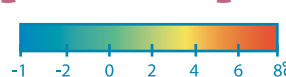

COOLING SYSTEM TECHNOLOGY

New

Surround Cooling System

Conventional Cooling System

Surround Cooling System

We have developed an advanced cooling system that evenly distributes airflow throughout the fridge by distributing constant airflow at each shelf from every direction inside the compartment. Cool air flows around the back, the sides and in front of the compartment in order to minimize the loss of cool air. As a result, all areas inside the compartment, even door pockets quickly regain optimum cooling temperatures after opening.
